Riddle Books

Each riddle book has two outlines. One outline is an object that can be decorated and will be the place where the answer to the riddle is hidden. The second outline is a blackline of the object with writing lines. Each child should cut out and decorate the object, adding their name to the back. Tell the children that they must think of something to hide behind their object that other people wouldn’t expect to find there or clues to what really might be there. Using their imagination they draw their item (person) or can use graphics/cutouts to fit behind the object. On the piece of writing paper, instruct the children to list three clues about the item (person) that is hidden. Create a class book by placing the object on one side of a large page. Glue the side strip to the page, allowing the object to fold back (up). Glue the
